Qiping Zhang | Curriculum Vitae

+1 512-871-8061 • qiping.zhang@yale.edu • qiping97.github.io

Education

Yale University 2021 – present
Ph.D. in Computer Science advised by Marynel Vázquez.

The University of Texas at Austin 2019 – 2021
M.S. in Computer Science advised by Peter Stone and Scott Niekum.
Thesis: Interactive Learning from Implicit Human Feedback: the EMPATHIC Framework

The University of Hong Kong 2015 – 2019
B.Eng. CS Major & Math Minor, First-Class Honours

Research Interests

- **Interactive Machine Learning**: learning from human-generated rewards, demonstrations, and implicit feedback.
- **Human-Robot Interaction**: efficient robot learning of tasks and social rules via intelligent interactions with humans.
- **Foundation Models for Robotics and Autonomous Agents**: developing and leveraging foundation models and agentic systems for inferring human perception of robots and robot policy improvement.

Publications

Conference & Journal Publications

- Few-Shot Inference of Human Perceptions of Robot Performance in Social Navigation Scenarios
  Qiping Zhang, Nathan Tsoi, Mofeed Nagib, Hao-Tien Lewis Chiang, Marynel Vázquez
  In submission [link]
- Learning Human Preferences Over a Human-Robot Collaboration Based on Explicit and Implicit Human Feedback
  Kate Candon, **Qiping Zhang**, Alexander Lew, Houston Claure, Lena Qian, Alyssa Quarles, Chayan Sarkar, Marynel Vázquez
  Proceedings of the 2026 ACM/IEEE International Conference on Human-Robot Interaction (HRI), Mar 2026 [link]
- Predicting Human Perceptions of Robot Performance During Navigation Tasks
  Qiping Zhang*, Nathan Tsoi*, Mofeed Nagib, Booyeon Choi, Jie Tan, Hao-Tien Lewis Chiang, Marynel Vázquez
  ACM Transactions on Human-Robot Interaction (THRI), Jun 2025 [link]
- REACT: Two Datasets for Analyzing Both Human Reactions and Evaluative Feedback to Robots Over Time
  Kate Candon, Nicholas C. Georgiou, Helen Zhou, Sidney Richardson, **Qiping Zhang**, Brian Scassellati, Marynel Vázquez
  Proceedings of the 2024 ACM/IEEE International Conference on Human-Robot Interaction (HRI), Mar 2024 [link]
- Self-Annotation Methods for Aligning Implicit and Explicit Human Feedback in Human-Robot Interaction
  Qiping Zhang, Austin Narcomey, Kate Candon, Marynel Vázquez
  Proceedings of the 2023 ACM/IEEE International Conference on Human-Robot Interaction (HRI), Mar 2023 [link]
- The EMPATHIC Framework for Task Learning from Implicit Human Feedback
  Qiping Zhang*, Yuchen Cui*, Alessandro Allievi, Peter Stone, Scott Niekum, W. Bradley Knox
  Proceedings of the 4th Annual Conference on Robot Learning (CoRL), Nov 2020 [link]
- 3D Backscatter Localization for Fine-Grained Robotics
  Zhihong Luo, **Qiping Zhang**, Yunfei Ma, Manish Singh, Fadel Adib
  Proceedings of the 16th USENIX Symposium on Networked Systems Design and Implementation (NSDI), Feb 2019 [link]

Workshop Publications

- SEAN-VR: An Immersive Virtual Reality Experience for Evaluating Social Robot Navigation
  Qiping Zhang*, Nathan Tsoi*, Marynel Vázquez
  Companion of the 2023 ACM/IEEE International Conference on Human-Robot Interaction (HRI), Mar 2023 [link]
- Reaction Modeling for Deriving General Task Information from Implicit Human Feedback
  Qiping Zhang*, Yuchen Cui*, Sahil Jain, Alessandro Allievi, Peter Stone, Scott Niekum, W. Bradley Knox
  HRI '21 Workshop on Applications for Autonomous Non-Verbal Human-Robot Interactions, Mar 2021

- Demonstration of the EMPATHIC Framework for Task Learning from Implicit Human Feedback
  Qiping Zhang*, Yuchen Cui*, Sahil Jain, Alessandro Allievi, Peter Stone, Scott Niekum, W. Bradley Knox
  Proceedings of the 35th AAAI Conference on Artificial Intelligence (AAAI), Feb 2021 [link]

Research Experience

Yale Interactive Machines Group (IMG) Yale University, 2021 – Present
Advised by Marynel Vázquez and Brian Scassellati
Developing effective robot learning algorithms from intelligent human-robot interaction.

Learning Agents Research Group (LARG) UT Austin, 2019 – 2021
Advised by Peter Stone and Scott Niekum
Lead of the EMPATHIC framework: interactive reinforcement learning from implicit human feedback.

CMU Robotics Institute (RI) CMU, Jun – Dec 2020
Advised by Reid Simmons
Research internship: developing a game-playing robot that conditions its behavior on different human player moods recognized during interaction.

MIT Media Lab MIT, Jun – Sep 2020
Advised by Fadel Adib
Research internship: developing a RF-based 3D backscatter tracking system for fine-grained robotics.

Qualitative Reasoning Group (QRG) Northwestern University, Mar – Jun 2018
Advised by Ken Forbus
Undergraduate study: building an inference-based AI cognitive system with Microsoft \psi framework to support interactive dialogues and multi-modal Q&A tasks.

Teaching Experience

Graduate Teaching Assistant Yale University

- CPSC 4590/5590: Building Interactive Machines, Fall 2025
- CPSC 484/584: Introduction to Human-Computer Interaction, Spring 2024, 2023
- CPSC 472/572: Intelligent Robotics, Fall 2022

Undergraduate Teaching Assistant HKU

- COMP2396: Object-oriented Programming and Java, Fall 2017
- ENGG1111: Computer Programming and Applications, Spring 2017

Skills

- **Programming:** Python (PyTorch, TensorFlow, ROS), C/C++, Unity C#, Javascript, MATLAB, Java, LLM/VLMs (Gemini, ChatGPT, LLaMa, LangChain, Vertex AI)
- **Languages:** English, Mandarin, Cantonese

Awards

- **Lee Shau Kee Scholarships for Student Enrichment** 2018
- **First Prize in National Robot and Artificial Intelligence Competition** 2017
- **Dean's Honours List** 2015 – 2019
- **Ho Fook Prize in Engineering (Top 1 GPA in freshman in the Faculty of Engineering)** 2015
